Raleigh, N. C., February 28.—Governor Kitchin sent to the General Assembly to-day a message relative to the bonds now in the possession of the United States government of North Carolina, of the class of the South Eakota bonds, and recommending steps for adjusting the differences. The government has \$58,000 of these bonds, purchased many years ago, with certain Indian funds of the government, they being of the class of bonds compromised in 1879 at 40 cents on the \$1. The interest and all on these now amount to something like \$300,000, On the other hand, the State has claims against the United States government for \$44,000 worth of cotton that was seized and confiscated during the Civil War by the Federal government, and this, wit haccrued interest, offsets the government claim largely. The recommendation of the Governor is that Railtoads.
